

Set your community apart with specialized respiratory therapy and pulmonary rehab.

Symbria Rehab's best-practice driven Respiratory Therapy and Pulmonary Rehab Program integrates clinical delivery, nursing, and rehab services to optimize outcomes.

Designed to provide the highest quality care and support for residents with respiratory diseases and lung disorders, our comprehensive services include:

- 1 A full range of modalities:**
 - Oxygen therapy
 - Aerosol delivery
 - Airway care
 - Pulmonary diagnostics
 - Pulmonary rehab techniques
- 2 The highest standard of care** provided by licensed, certified, and registered respiratory therapists.
- 3 Ongoing respiratory assessment** of resident's clinical status.
- 4 Respiratory therapy equipment recommendations.**
- 5 Clear, consistent communication** with nurses and physical therapists.
- 6 Nursing staff education** and training.

Your residents benefit and your community benefits.

Our Respiratory Therapy and Pulmonary Rehab Program enhances quality of life for your residents and contributes to the sustainable success of your community in three key ways.

- 1 Strengthens your competitive advantage** by facilitating admission of higher-acuity residents with co-morbidities and respiratory diseases, pneumonia, obstructive and restrictive lung disorders, and tracheostomies.
- 2 Improves outcomes** and reduces resident readmission to hospitals.
- 3 Creates opportunities to align reimbursement** with higher rehab RUGS categories and enhanced case mix index scores.

Symbria Rehab. Forward-thinking teamwork.

Integrity and compassion have always gone hand-in-hand with our commitment to innovative initiatives. Established in 1999, Symbria Rehab now encompasses multiple joint venture partnerships, a growing client base of close to 200 post-acute care and senior-living communities, and a staff of nearly 2,000 therapy and fitness professionals in more than a dozen states.
